

JULIE ROCHE

Associate Professor

Department of Physics and Astronomy
Ohio University
Athens, OH 45701

July 2017

rochej@ohio.edu
<http://inpp.ohiou.edu/~roche>

EDUCATION

2003-2005: Postdoctoral Fellow, JLab. Mentor: R. Ent (JLab).

1999-2002: Postdoctoral Fellow, The College of William and Mary (based at JLab¹).
Mentors: D. Armstrong (The College of William and Mary) and A. Lung (JLab).

1995-1998: PhD in Corpuscular Physics. Université B. Pascal (France). Research location: CEA-Saclay, France. Thesis advisors: N. d'Hose (CEA-Saclay) and H. Fonvieille (CNRS). Thesis topic: "Virtual Compton Scattering at the MAMI facility and measurement of generalized polarizabilities of the proton".

APPOINTMENTS

2012-present: Associate Professor, Ohio University.

2009-2012: Assistant Professor, Ohio University.

2006-2009: Assistant Professor, Ohio University/JLab.

2006: Visiting scientist, JLab and Rutgers University.

TEACHING EXPERIENCE

In-class teaching

G stands for graduate level classes while UG stands for undergraduate level classes. All classes were taught at Ohio University.

Research Seminar Nuclei & Particle Physics (G) Fa2017 and 5 other times.

Introduction to Nuclear and Particle Physics (G): Fa2015 and 4 other times.

Junior laboratory (UG): Fa2017 and 7 other times.

Electronics laboratory (UG): Sp2017 and 3 other times.

Scale-Up: Calculus based Introductory Physics (UG): Fa2013.

Calculus based Introductory Physics (UG): Wi2011 and 3 other times.

Professional development:

ALPHA Laboratory immersion (Junior lab workshop), 3 days, 2017.

Faculty Learning Community: Evaluating students evaluation, 15 hours, 2016.

Conference on laboratory instruction beyond the 1st year of college, 3 days, 2012.

Workshop for new physics and astronomy faculty members, APS-AAPT, 3 days, 2008.

¹JLab is a DOE national facility located in Virginia, USA.

ACADEMIC ADVISING**Undergraduate students**

Academic advisor since Fall 2016: so far I advise 3 students.

Undergraduate summer internship directed (typically 8 weeks): 10 students/projects or about one every summer.

Undergraduate Student Honors Projects Directed:

2015: R. Radloff, "Simulation of an alternative trigger system for E12-06-114".

Graduate students

The following students are affiliated with Ohio University unless otherwise noted.

Thesis director:

-G. Hamad, Master thesis topic: "DVCS in Hall A", 2016-2017.

-B. Karki, PhD thesis topic: "DVCS in Hall A", 2015-present.

-M. Dlamini, PhD thesis topic: "DVCS in Hall A", 2013-present.

-N. Israel, Master thesis title: "Commissioning of the Trigger module for the 12 GeV era experiment E12-06-114 at JLab", 2013-2014.

-R. Beminiwatttha, PhD thesis title: "A Measurement of the Weak Charge of the Proton through Parity Violating Electron Scattering using the Qweak Apparatus: A 21% Result". **JSA/JLab 2014 Thesis prize winner**, 2007-2013.

-B. Waidyawansa, PhD thesis title: "A 3% Measurement of the Beam Normal Single Spin Asymmetry in Forward Angle Elastic Electron-Proton Scattering using the Qweak Setup", 2007-2013.

Summer internship director (typically 3 months):

-G. Daumy (U. de Nantes, France visiting student), Analysis of DIS data from E12-06-114, 2015.

-M. Ihaddadène (U. Paris VI, France, visiting student), Calorimeter calibration for the DVCS experiment, 2012.

-S. Chandavar, Data taking for the DVCS experiment, 2010.

-S. Grégoire (U. J. Fourier, France, visiting student), Measure of transmission of PbF₂ blocks for the DVCS experiment, 2007.

Member of PhD(5) - Master(5) dissertation Committees:

2016: M. Burrow (M-chair), 2015: C. Desnault (U Paris Sud), 2014: N. Rivelli, N. Israel (M), D. Divaratne, A. Marti (U of Valencia) 2013: A. Richard (M), A. Karki (M-chair), 2010: T. Edwards (M), 2009: S. Kizilgul.

Postdoctoral Research Associate

2009-2012: Dr J H Lee, co-advised with Asst. Prof. P. King (Ohio University) and Prof. D. Armstrong (The College of William and Mary).

UNIVERSITY AND DEPARTMENT SERVICE

-Reviewer of the Provost Undergraduate Research Funds (2016 and one other time): 31 proposals.

-
- Chair of the P&A² Advanced Undergraduate Laboratory Committee (2006-2014, chair since 2012).
 - Member of the Institute for Nuclear and Particle Physics (2006-present).
 - Member of the P&A peer faculty members evaluation committee (2017 and 2 other times): about 25 dossiers evaluated per year.
 - Member of the P&A faculty hiring committees: experimental nuclear physics (2016), astrophysics (2013).
 - Member of the P&A Colloquium Committee (2015-2016, 2006-2007): invite and host about 3 national-level speakers per semester.
 - Member of the Graduate Admission Committee (2009-2014): evaluated about 40 applications per year.
 - Chair of the P&A Scholarship Committee (2008-2014, chair from 2011): recommended about 30 recipients per year.
 - Developer of a new class for the Quarter to Semester transition: wrote class description for the revised Advanced Nuclear and Particle Physics series (2009).
 - Member of the Selection Committee for the Ohio University Postdoctoral Fellowship (2009).

SYNERGISTIC ACTIVITIES

Scientific community

- Chair of the 2018 Photo-nuclear reactions Gordon Research Conference: international conference of about 125 participants.
- Chair-elect of the JLab User Group Board of Directors (will become chair in 2018): representing the interests of 1500 users from over 200 international institutions.
- Member of the program committee of DNP of APS (2017-2019): participate to the organization of bi-annual meetings with typically 500 contributions.
- Member of the executive committee of the Ohio section of APS (2015-2018t): I am in charge of membership, I was able to increase membership by 9% since 2015.
- Member of the JSA/JLab Graduate Fellowship Evaluation Committee (2014-present: 3 times, about 65 proposal evaluated).
- OU representative to the Southeastern University Research Association-JLab program committee (2014 - present).
- Reviewer of research proposals for NSF and DOE : general grants & MRI (2007-present): 9 proposals reviewed.
- Member of the Committee of Visitor for the Division of Physics of NSF (2015).
- Spokesperson for three Deeply Virtual Exclusive JLab experiments: E07-007, E12-06-114 & E12-13-010 (2006-present).
- Chair (secretary the first year) of the JLab Hall A Collaboration committee (2013-2014).
- Chair (member the first year) of the JLab Hall C Steering Committee (2007-2008).
- Member of the JLab User Group Board of Directors (2004-2006).
- Analysis Coordinator for the forward angle data of the G0 collaboration (2003-2005).

²P&A stands for the department of Physics and Astronomy

Outreach & Mentoring

- Organizer of monthly Women in Physics and Astronomy lunch meetings. Co-organizer: 2006-2013, organizer since 2015. Average participation: 10 persons.
- Web Forum host for the "Adopt a physicist" program (Fall 2016 and 3 others times): answers to high-schoolers questions in yearly forums that last 3 weeks, over 200 posts in my forums.
- Lead facilitator of the Physics workshop TechSavvy event organized by the Athens OH section of AAUW (June 2016 and one other time) target audience: girls in middle schools.
- Interviewee for the JLab 12 GeV Science magazine article Vol 347 Issue 6220 (2014).
- Guest speaker at the Women in Science and Engineering day (2012, 2011, 2010). Target audience: girls in middle schools.
- Mentor of the Ohio University Women center (2009:E. Banks, 2012:A. Sindelar, 2013:R. Curry).
- Science fair judge (2013: Athens Ohio Middle school fair, 2007: Ohio State Science Fair, 2004& 2006: Virginia Regional Science Bowl).
- Facilitator at Open house events : OU physics department (2015,2013), JLab Open house (2003, 2005).

RESEARCH FOCUS

My research focuses on the study of the internal structure of protons and neutrons. This structure is governed by the Strong force, one of the four fundamental forces of our universe. I also study the limits of our understanding of these four forces by looking for Physics beyond the Standard Model of particle physics in the precision frontier. As an experimentalist, I measure the products of reaction induced by high energy electrons impinging of proton or neutron targets. I currently work with the JLab electron beam and have experience working with the electron beam at MAMI, a facility in Germany.

Technical skills: mounting and testing of scintillators arrays and EM calorimeter, data analysis coordination, data taking coordination, analysis of absolute cross-sections and helicity correlated asymmetries.

Physics skills: hard exclusive reactions, GPDs, parity violation in electron scattering.

Spoke-person: for experiments E07-007, E12-06-114 and E12-13-110 at JLab.

Significant collaborations at JLab: NPS, DVCS@Hall A, QWEAK, G0.

RESEARCH SUPPORT (PAST AND CURRENT)

NSF general grant: "Study of the electroweak structure of the nucleon" Co-PI: P. King
2016-2019: \$540K, 2013-2016: \$498K, 2010-2014: \$491K, 2007-2010: \$375K

NSF MRI Consortium: "Development of a Neutral Particle Spectrometer to Investigate the Quark Structure of the Proton at JLab 12 GeV", Co-PIs: T. Horn (CUA), C. Hyde (ODU), 2015-2018: NSF Award #1530874, OU portion: \$137K.

JSA/JLab:

2016: Hall A/JLab, Teaching buy out, 15 weeks.

2014: JSA, "Sabbatical and Research Leave Support", \$18K

2014: JLab, "Sabbatical Salary Supplement", 3 months.

2006-2009: Academic Bridge appointment between OU and JLab, 10 weeks teaching buy out per year.

Ohio University, Internal grants:

Postdoctoral fellow support:

2009-2011: The Institute of Nuclear and Particle Physics of Ohio University, \$25K

2008-2010: The Office of the Vice-President for Research at Ohio University, \$25K

PEER REVIEWED PUBLICATIONS

I have published a total of 78 papers in peer reviewed journals, 12 after 2012. Nine of these papers were co-authored with Ohio University students working under my supervision, shown with a * in the lists. My h-index is 38 (March 2017 numbers).

INVITED RESEARCH TALKS

- October 2016: “Nucleon spatial imaging”, DNP Fall 2016 meeting, Vancouver, Canada.
- June 2016: “Nucleon spatial imaging”, 6 hour class at the JLab graduate summer school HUGS2016.
- May 2015, “Precision studies of the DVCS process at JLab.”, Few Body 21 conference, Chicago, IL, USA.
- August 2014, “DVCS in the valence region.”, Gordon Research Conference (Photonuclear reactions), Holderness, NH.
- June 2014: “DVCS in Hall A: early 12 GeV experiment.”, JLab User group meeting, Newport News, Va, USA
- June 2012: Qweak: a search for physics beyond the Standard Model, HITES 2012, New Orleans, USA
- September 2011: QWEAK colloquium, Ohio University, Athens OH, USA.
- August 2010: “Deep Virtual Compton Scattering”, Gordon Research Conference (Photonuclear reactions), Tilton NH.
- April 2009: Third Workshop of the APS Topical Group in Hadron Physics, Denver OR, “The status of Parity Violating Electron Scattering”
- March 2008: GPD seminar, University of Kentucky, Lexington KY, USA.
- August 2006: Gordon Research Conference: Photonuclear Reactions, Tilton NH, “G0 experiment in Hall C @ JLab”
- September 2005 : G0 colloquium, Ohio University, Athens OH, USA.
- June 2005 : G0 seminar, Ohio University, Athens OH, USA.
- April 2005 : G0 seminar, Laurentian University, Sudbury ON, Canada.
- October 2004 : G0 seminar, LPClermont-Ferrand, France.
- June 2004 : Guest speaker at the Hampton University Graduate School (JLab summer school for advanced graduate students and post-doctoral research associates). G0.
- September 2002 : Presentation of the G0 experiment, Accelerator Division at JLab, Newport News VA, USA.
- November 1999 : VCS@Mainz, seminar, University of Maryland, USA.
- August 1999 : VCS@Mainz, seminar, Jefferson Laboratory, USA.

- February 1999 : VCS@Mainz, seminar, SPhN-CEA-Saclay, France.
- August 1998 : INPC 1998, Paris, France, “Virtual Compton Scattering under π^0 threshold at $Q^2=0.33 \text{ GeV}^2$. Preliminary Results”.

CONTRIBUTED RESEARCH TALKS

Only those for which I was the speaker.

- September 2014: ”Future precision studies of the DVCS process at JLab”, PANIC2014, Hamburg, Germany.
- April 2012: “The DVCS program in Hall A at Jefferson Lab”, QNP2012, Orsay, France.
- June 2011: “DVCS update”, Hall A summer collaboration meeting, Newport News VA, USA.
- December 2010: “Hall A software update for helicity”, Hall A winter collaboration meeting, Newport News VA, USA.
- April 2007: “The future of the DVCS experiments in Hall A at JLab”, Exclusive reaction workshop, Newport News VA, USA.
- October 2004 : “Status report of the G0 experiment”, SPIN 2004, Trieste, Italy.
- October 2003 : “The G0 experiment”, Fall Meeting, DNP/APS, Tucson AZ, USA.
- June 2004 : “VCS at low energies”, GDH2004 symposium, Old Dominion University, Virginia.
- March 2002 : “The G0 experiment”, Baryons’02, Newport News VA, USA.
- October 2001 : “The G0 experiment”, Fall Meeting, DNP/APS, Maui HA, USA.
- October 1999 : VCS@Mainz, Fall meeting, DNP/APS, Monterey CA, USA.
- September 1997 : VCS@Mainz, Workshop on Chiral Dynamics 1997, Mainz, Germany.
- December 1996 : VCS@Mainz, Journées Jeunes Chercheurs, Aussois, France.
- June 1996 : VCS@Mainz, Workshop on VCS, Clermont-Ferrand, France.

INVITED OUTREACH TALKS

- September 2016: “Wrestling the strongest force of the universe.” SPS meeting, Ohio University.
- October 2013: “First Determination of the Weak Charge of the Proton.”, SACNAS 2013, San Antonio, TX, USA.
- October 2013: “Wrestling the strongest force of the universe.” SPS meeting, Ohio University.
- September 2012: “So they found the Higgs, now what? How I search for Physics beyond the Standard Model.”, Bowling Green University, OH.
- March 2008: “The strange shape of the proton”, Colloquium at dePauw University, IN, USA.
- February 2008: “Nucleon electro-weak structure: experimental nuclear physics”, SPS meeting, Ohio University.
